

FieldLazer™

Professional Field Marking Equipment

PROVEN QUALITY. LEADING TECHNOLOGY.

There is nothing like a Graco® field marking machine

Welcome to the world of Graco airless field marking.

In 2004, Graco revolutionized field marking with the introduction of the original FieldLazer S100, the first walk-behind field marker utilizing proven Graco high-pressure airless paint spray technology.

FieldLazer field marking machines have been recognized worldwide by sport turf maintenance professionals for delivering brighter, longer-lasting lines with less paint.

Now, the FieldLazer product family has evolved to a full product line-up for all your field marking needs.

High-Pressure Pumps & Precision Spray Tips

Fine Spray Pattern Which Coats Both Sides of the Grass Blade, NOT the SOIL

FIELDLAZER

THE RESULT...

- Professional, **bright lines**
- Up to **75% lower paint cost** vs. aerosol
- Up to 50% lower paint cost vs. Competitive Low Pressure Models
- Finish up to **4X faster***

AND...Sprays Thick, Undiluted Paint

- Spend less time measuring and mixing

COMPETITION

Endurance™ Pump

Graco's **Endurance Pump** is the most rugged and reliable pump on the market today. This field proven design with long-life **V-Max Blue™** packings, **Chromex™** rod delivers superior reliability and life.

FieldLazer G400 Automatic Gun Control System

Computer controlled, hydraulically actuated guns can **Automatically Paint Hash Marks**, Yard Lines, Dashed Lines, and **Automatically Layout a parking Lot!**

*When compared with low pressure and aerosol models.

Field Marking Equipment

FieldLazer High-Pressure Airless Technology operates at over 10X the pressure of competitive, low-pressure models. The result is lower paint consumption and professional bright lines. Low-pressure models simply dump paint onto the ground; wasting not only paint but also water, time and money! All FieldLazer models utilize High-Pressure Technology and precision spray tips to provide a spray pattern that coats both sides of the grass blade, not the soil.

STRIDE · RIDE · GLIDE™
YOU DECIDE

FieldLazer **STRIDE**

Walk-Behind field marking equipment for sporting facilities with fewer fields, or field maintenance crew members with a preference to walk. **FieldLazer S90, S100 and S200** walk-behind models feature durable, lightweight construction for effortless straight lines over even the roughest terrain.

FieldLazer **RIDE**

Ride-On field marking equipment for sporting facilities with a larger number of fields, smaller crew, or an emphasis on reducing operator fatigue. **FieldLazer R300 Complete** ride-on system is an intuitive, low impact, low vibration option to produce bright, straight lines over even the roughest terrain.

FieldLazer **GLIDE**

This is the industry's **first** all-in-one **Stand-On Self-Propelled** field marking machine for sporting facilities with a larger number of fields, smaller crew, or an emphasis on reducing operator fatigue. **FieldLazer G400** stand-on system is an intuitive, low impact, low vibration option to produce bright, straight lines over even the roughest terrain. It can also paint **hash marks automatically!**
