

TEMPLINE NATURAL GRASS PAINT

Setting the Standard for Grass Paint Performance

Not All Grass Paints Are Created Equal.

A good grass paint should deliver certain essential benefits, including easy preparation and application, with reliable on-field performance at a reasonable cost. Many products struggle to meet this challenge.

TempLine Grass Paint offers you all of this and more.

TempLine Natural Grass Paint Delivers Exceptional Performance and Convenience

Besides showing up on game day with great performance and durability on the field, TempLine Grass Paint makes your field painting job easier and less costly.

- Reliable color consistency from one box to the next
- Easily applied with conventional striping equipment
- Available in brilliant white, yellow, blue, red, orange, black, and green
- Dries in as little as 5 minutes

Being Green Has Never Been Easier

TempLine comes in concentrated form, ready to mix with water, packaged in recyclable cardboard boxes. Each 26 lb. box contains two “kits” and each kit makes from 5 to 7 gallons of paint, depending on your coverage quality requirements.

- Water-based formula with no VOCs
- No aerosol propellants polluting the air
- Virtually no packaging waste
- Concentration can be adjusted by adding water
- Harmless for all varieties of grass

TempLine Delivers Big Value in a Small Box

TempLine offers convenience, dependable performance and economy at a much lower environmental cost.

- Excellent color quality, opacity and coverage uniformity
- Dependable play wear durability and weather resistance
- An easy-to-handle 26 lb. package instead of an awkward 50 to 70 lb. pail
- The equivalent of 75 aerosol cans of paint at 20% of the cost
- Reduced storage space requirements (one pallet of TempLine boxes = two pallets of 5 gal. pails!)
- Low shipping weight means lower freight costs and a smaller carbon fuel footprint
